

Fulvic Genie

Plant growth stimulant

What is Fulvic Genie?

A plant growth stimulant which contains fulvic acid naturally made and extracted from ground water with *Ascophyllum nodosum* seaweed extract.

Use

The benefits of seaweed extract have been known to growers for centuries, whilst fulvic acid is the soluble residue left from the degradation of organic matter in the soil. Combined together in Fulvic Genie these materials work to help the plant produce greater marketable yield through bigger blooms and fruits, healthy dark green foliage and an improved root system.

Method of use

Can be applied as a foliar spray, or as a root drench through the irrigation system.

Directions for use

Foliar Application and timing:

By knapsack sprayer -

Mix 10 - 20 ml of Fulvic Genie in 10 litres of water and spray to point of run-off.

By tractor sprayer

1 – 2 litres in a minimum of 200 litres of water per hectare.

Apply early in the season as soon as there is sufficient leaf coverage to spray, repeating every 14 days, for 3-5 cycles.

Root drench: Add to the irrigation water at the rate of 1 litre to every 1000 litres of irrigation water and apply when watering once every two weeks as a minimum. Rinse irrigation lines with clean water after using Fulvic Genie since organic materials can be attractive to fungi. For this reason it is recommended to use prepared stock solutions within two days.

General information

pH:	8 at 1% solution.
EC @ 1ml/l:	0.43mS
Specific gravity:	1.15
Packaging:	1, 10 & 20 litre jerry cans and 1000 litre containers.
Shelf life:	2 years
Technical service:	For further information, assistance and access to The Solufeed Advisory Service, please contact Solufeed at the address below.

Precautions

PROTECT FROM FROST. Do not allow product to freeze.
KEEP OUT OF REACH OF CHILDREN
Keep containers tightly sealed when not in use.
Keep out of direct sunlight.

Detailed health and safety information may be found on the relevant Material Safety Data Sheet (MSDS) available on request from the address below.

Important

The information in this document has been prepared carefully and is provided in good faith. The application, use and processing of any material together with regulatory compliance is the absolute responsibility of the Buyer. All technical information or other advice provided by the Seller in any form is given without warranty to the full extent provided by law.
